and i'm liv ing with the slow death blues

I'm living in a slow death country
That's part of a slow death world
I'm living with a slow death woman
I'm living with the slow death blues

The rich own all the factories
The rich own all the farms
The poor survive on benefits
Listening to the slow-death alarms

It's true about billy Hogarth
It's true about billy Blake
It's true about billy turner
And the whole world is a fake

You could say I'm not happy
You could say that I'm dissatisfied
You could say that I woke up feeling badly
in a whole world full of lies
